

IBX™

Lovers Quotes

THE POWER OF IBX[®]

IBX has taken my business to another level. I am more well-known, simply because my clients are so happy. After just one or two treatments, they go share the experience with their friends.

That word-of-mouth has gotten me more clients... and even a few phone calls from other local nail techs wanting to know what IBX is and where can they get some!

I tell everyone about this product.
It never lets me down.

Wendy Weed

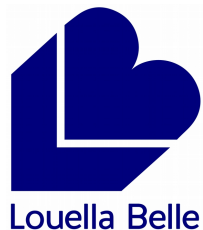

THE POWER OF IBX[®]

I used to only get a week with gel polish, if I was careful. I work with horses and that's extra tough on my nails. Plus, they are naturally horrible, thin, bendy and peeling. I have two chips on the right hand right now (not surprising given the horses), but instead of a chip-and-break, it's just a chip in the polish with nails intact.

These are my natural nails. It's been years since I've had a thumb nail, as they both always split right down the middle. Thank you so so so much for such an awesome product. You are my hero!

Christy Heath Christoffersen

THE POWER OF IBX[®]

I first started using **IBX** in 2014 when it first came out, testing it on my daughter and myself. We got great results and I started using it for every client that I felt needed it. No more white spots, no thin or brittle nails. On some clients, I could actually see and feel a ledge where the healthy nail was growing.

IBX is worth every penny. If you use it on one client, you make your money back. I am just now getting low on my first pack. **IBX** is a product that does exactly what it claims.

THE POWER OF IBX[®]

During a very tough chemotherapy round, one of my best friends not only lost her hair, but her nails, too.

I took her my bottle of Dadi'Oil, hoping to soothe her painful fingertips and naked nail beds. It helped to soften the pain and her nails grew back but were VERY soft and flexible -- like a baby's nails. So, we started **IBX**.

It worked marvelously! Without her hair, she felt like less of a woman; but without her nails she felt practically incomplete. She was so thankful for the results.

By using Dadi'Oil and **IBX** as a team, we got results that gave her a little more strength to fight. I have to say, Famous Names does not only repair nails and skin, but also the spirit.

THE POWER OF IBX[®]

My nails were so soft and thin that they would bend when I grabbed a handful of laundry. After **IBX**, my nails were incredibly different. After the first treatment. Amazing before-and-after difference. The kind I wouldn't believe had I not seen it for myself.

THE POWER OF IBX[®]

I started using **IBX** short after it launched. While I know they aren't "supposed" to, gel polishes were doing some damage to my natural nail clients. Their nails were getting weaker and weaker, causing those gel polish clients to take a "break."

I have been able to keep them coming back by incorporating the **IBX** system into their manicures. They can now all hold gel polish for good three weeks, when some used to start to have chips during week one. I have seen improvements on chemo patients, as well as clients with nails that have been weak and soft since birth.

I use **IBX** every time I see gels that don't last long enough, or when people come to me with another salon's acrylic set damage. I advertise myself as a natural nail care specialist and **IBX** is a huge part of that statement. Thank you!

THE POWER OF IBX[®]

One of my dearest clients has come to see me every two weeks for 20 years. We have been doing acrylic overlays that whole time. About five months ago, she admitted she was ready to take her acrylic off. It was a poignant moment. She loved her acrylic nails with a devotion I have not encountered very often over my career.

But I was excited. I had been using **IBX** for a little while and knew the process growing out the 'acrylic' section of her natural nail would be all the less painful if we incorporated **IBX** treatments diligently.

We did the initial 3 course treatment programme, and have continued with **IBX REPAIR** and **IBX** for the entire five months -- 12 applications to date. The results are literally amazing, and she says she does not miss her acrylics one bit.

IBX is a legitimate product that delivers the results it promises.

I'm proud to say I love **IBX** (and Dadi'Oil) and look forward to seeing -- and using -- whatever the Famous Names alchemists dream up next.

THE POWER OF IBX[®]

I have been a nail tech for over 30 years now and have learned so many different types of nails -- from silk & fiberglass to that old, very hard acrylic that you needed a black or orange grinder to file off.

I value the client's nail health above all else and now use a soak-off gel system on 80% of my clientele.

What 99.9% of clients want is good nail health during and after their nail services. The one downside of any soak-off system (that I have used) is a slight delamination of the nail surface, causing lifting off of the gel. Dryness resulting in white spots, too.

Since using **IBX**, I now have almost NO LIFTING -- even on clients with naturally tissue-thin nails. And I see virtually no more white spots with continuous **IBX** use.

If not for **IBX**, I would not have such a high client retention rate. My books would not be full and closed to new clients.

I found it so embarrassing and stressful when I had to deal with lifting and white spots. I am so pleased to find and use a product that actually fulfills its promises. Thank you, thank you, thank you **IBX**!

Jillian Swan-Eiffe

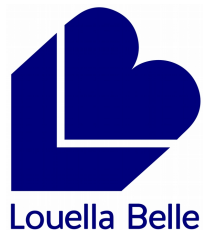

THE POWER OF IBX[®]

IBX has been amazing! The transformation of my clients' nails has surpassed what I've seen any other product out there try to do, ever.

Not only do I personally use **IBX** and absolutely love it -- but every single one of my clients demands it! I say to all other licensed nail artists: if you are not using **IBX** in your salon, you are not doing justice to your clients' nails. Get out there, and try **IBX**. There is constant education on this product, so you will be well-prepared. It's a great boost to your business, too!

I am beyond thankful to Linda and Jim for creating such a mind-blowing treatment!

THE POWER OF IBX[®]

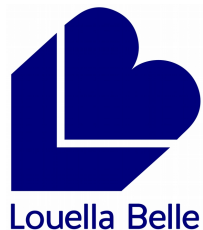

IBX came to my business at just the right time! Most of my gel polish customers were not lasting more than four to seven days. I had switched most of them to a different soak-off system, but it was a completely different type of system that also costs more.

Once I got **IBX** and started using it, I saw and felt the change at once. The natural nail was better hydrated and felt stronger. A perfect partner to ANY gel polish service! I slowly started taking my clients back to gel polish WITH the **IBX** treatment, and I was amazed.

IBX saved my gel polish business and my clients' nails. Now, when new customers come into the salon and want gel polish, I have zero fears because I'm using **IBX**. I know it will wear for the length it should, and the natural nail will stay so much more healthy.

Thank you so very much for this system. It has increased my average ticket price; but most importantly, it has improved the integrity of the natural nail.

THE POWER OF IBX[®]

My nails have always been weak and brittle. I had my first **IBX** treatment two weeks ago, and I now have nails that extend beyond my fingertips! Yay! They feel stronger already. And now that my mom has seen how well the IBX is working for me, she's considering it for herself, too!

Sara Palmer

THE POWER OF IBX[®]

Every single nail professional who cares about the health and strength of their clients' nails, whether a natural buff or an L&P stiletto, should be offering the **IBX** treatment.

From Day One, **IBX** made perfect sense to me.

I believe that the **IBX** treatment should be prescribed to every client out there. The additional cost to both salon and client is so minimal and the results are so phenomenal that it is a true no-brainer!

Natural nail clients right the way through to the permanent enhancement clients; all can and SHOULD be benefitting from an **IBX** treatment."
